Therefore, campus is trying to launch the Science & Technology based other academic programs (including Information Technology, Travel & Tourism etc.) in order to fulfill the expectation of community and according to the updated policies of local, provincial and federal government. Institution has the expectation to lead the academics with the National and International recognition by producing qualified and jovial manpower for the society.

As the campus is being motivated by University Grants Commission, supported and honored by the all the levels of government, appraised by community, supported by locals; we are enthusiastic that this campus will lead in academics by its qualitative assets (Teachers, Staff, cooperative Students) which will result to the sustainable progress of institution. And, we are expecting the continuity of supports in the days to come.

Due to the covid 19 global pandemic, Campus is unable to meet all its plans, proposed/allocated for this year. Still, we are hopeful to overcome all the problems as there is our guardian UGC.

Thank You.

6. Social Progress:

6.1 Campus's Involvement in Social Activities:

Rammani Multiple Campus has the trend of being involved in society. As a community based campus, it has many responsibilities & duties to the community around the campus. It is well known that the campus is established with the contribution of the dedicated people of the societies. Rammani Multiple Campus has been taking part with various organization & Institutions very actively & vice versa. This campus has become a part of marginalized to the higher class people of the different communities.

6.2 Society's contributions for Campus:

The campus itself is the result of social contribution. Surrounding communities have has been co-operating the campus with various ways including direct presence and providing numerous forums to the campus or campus stakeholders. The events and activities being organized by campus are mostly on the basis of social contributions. Campus uses them as the sponsors, supporters, advertisers or donors; and completes the programs.

6.3 Plan for Campus's contribution to Society:

This Campus has achieved QAA Certificate from UGC. Concentrating on these, the major programs campus already has completed and submitted the detailed strategic plan to UGC. By

following the same strategic plan and advices from the UGC, campus will contribute to the society.

6.4 Plan for increased involvement of Society in the Campus:

On the way to performing activities, there will be many more involvements of social stakeholders in the campus. For example: Campus will invite:

- 1. To get feedback of its quality.
- 2. To involve in major activities, events and programs organized by campus.
- 3. In extension activities of the campus.

7. Issues and Challenges:

There are both types of challenges to the campus. Many challenges are from the private sectors' campuses and institutions and some of the challenges are lack of awareness of the society.

7.1 Short Term

The private sector colleges have been applying different, unequal and situational methodologies to enroll better background students in their institutions. On the other hand Rammani, a community campus by its nature cannot apply unequal priorities to the students. There is unhealthy competition between the private colleges hence RMC is the victim of it.

7.2 Long Term

As the RMC is public campus, it should admit all types of students. Being including their quality, economic condition and so on. Furthermore, RMC is aware of international standard quality production that helps its production (i.e. RMC/s student) of employ all over the world. Though we are trying to increase enrollment and pass percentage and reducing the dropout students, it is tough for the campus to reduce it as we wish.

In the state of practicing with QAA Certificate, we have a plan of collecting the information regarding the needs of the society, Local government, Provincial government and the national policy more over the need of the market and making necessary subjects to study, Thus in future we are planning to change this campus as self-governed and develop it as a Deemed University. Even though, we have such plan to develop campus as a Deemed University, we do not have enough land and physical infrastructures for the extension of new academic programmes.

7.3 Mitigation Measures Taken to Address the Issues and Meet the Challenges:

Campus has started to implement its action-plan being based on QAA that were predefined by the institution. The programs are regulated more efficiently on the based of maintaing and delivering quality education to standardized QAA as well as overall development of the institution in order to achieve the above mentioned goals.

However, The campus has completed Q.A.A Cycle and Campus awarded by Q.A.A Certificate in Jestha 12, 2076. After receiving QAA Certificate, Our responsibilities is increased while maintaing the previous quality of education and standard of the campus. It's the challenge for renewing the QAA Certificate after two years..

7.4 Plan for Addressing the Issues and Challenges:

Campus will meet another objective of higher number of students enrollment after the achievement of QAA. We'll use the extra potentialities and methodologies in teaching / learning method in order to train and develop the academic programs with full exposure in the implementation level. Implementation of information technology, research, development of extra curriculum, trainings on career development etc will be the priority of the institution.

8. Annual Work Plan and Budget of the Current Fiscal Year 2079/080:

Campus has submitted its annual budget plan as its previous fiscal plan cum strategic has been expired this year. And, campus is on the process to commence new strategic plan with the fiscal plans for the days ahead.
